Dear customers, in our online store you can purchase high-quality batteries for laptops of all brands. All batteries have a quality certificate and meet all standards.

Signs of battery wear:

- Over time, the laptop began to quickly discharge when running on battery power;
- turn off at a certain charge level;
- does not fully charge to 100%;
- the operating system displays a message about the need to replace the battery;

The above points, as a rule, mean that the wear of the battery has reached a critical value and will need to be replaced with a new one!

If you have any questions about the correct selection of a new battery, you can always ask our specialists in a way convenient for you! We will help you make the right choice and select the most suitable option for your failed battery!

[Battery A1322 for laptop Apple MacBook Pro A1278 \(5800mAh\)](#)

I took a MacBook a1278 for my laptop, it fit like a native one. Externally there are no differences from the original, at least I didn't notice. Helped with installation in the store itself. There are no complaints about the work. If I add anything to the review :) ..

[Power supply for laptop Lenovo IdeaPad Z580 20V 4.5A 90W Long \(5.5x2.5\)](#)

Fits the Lenovo Z580 perfectly, the touchpad does not glitch from this power supply, everything is ok! Like family. Before that, I tried a bunch of other power supplies for the z580 (20v 4.5a, 90w) in other stores, the touchpad twitched a lot from them. ..
